Position

July 2020- Assistant Professor In-Residence, Department of Epidemiology and Biostatistics,

Present University of California, San Francisco

Nov 2022- Assistant Professor, UCSF-UC Berkeley Joint Program in Computational Precision

Present Health

Education

Sept 2015- PhD, Biostatistics, University of Washington, Seattle, WA

June 2020 Advisors: Noah Simon, Frederick Albert Matsen IV

2012–2013 MS, Computer Science, Stanford University, Stanford, CA

2009–2013 BS, Computer Science, Stanford University, Stanford, CA

Publications

Siavash Zamirpour, Alan E Hubbard, <u>Jean Feng</u>, Atul J Butte, Romain Pirracchio, and Andrew Bishara. Development of a machine learning model of postoperative acute kidney injury using Non-Invasive Time-Sensitive intraoperative predictors. *Bioengineering*, 2023.

Jaeyun Jane Wang, <u>Jean Feng</u>, Camilla Gomes, Lucia Calthorpe, Amir Ashraf Ganjouei, Fernanda Romero-Hernandez, Andrea Benedetti Cacciaguerra, Taizo Hibi, Mohamed Abdelgadir Adam, Adnan Alseidi, Mohammad Abu Hilal, Nikdokht Rashidian, and International Post-Hepatectomy Liver Failure Study Group. Development and validation of prediction models and risk calculators for Post-Hepatectomy liver failure and postoperative complications using a diverse international cohort of major hepatectomies. *Ann. Surg.*, 2023.

Alexandra B Steverson, Paul J Marano, Caren Chen, Yifei Ma, Rachel J Stern, Jean Feng, Efstathios D Gennatas, James D Marks, Matthew S Durstenfeld, Jonathan D Davis, Priscilla Y Hsue, and Lucas S Zier. Predictors of All-Cause Thirty-Day readmissions in patients with heart failure at an urban safety net hospital: The importance of social determinants of health. *American Journal of Medicine Open*, 2023.

Ali Sabbagh, Samuel L Washington, 3rd, Derya Tilki, Julian C Hong, Jean Feng, Gilmer Valdes, Ming-Hui Chen, Jing Wu, Hartwig Huland, Markus Graefen, Thomas Wiegel, Dirk Bohmer, Janet E Cowan, Matthew Cooperberg, Felix Y Feng, Mack Roach, 3rd, Bruce J Trock, Alan W Partin, Anthony V D'Amico, Peter R Carroll, and Osama Mohamad. Development and external validation of a machine learning model for prediction of lymph node metastasis in patients with prostate cancer. *Eur Urol Oncol*, 2023.

Ali Sabbagh, Derya Tilki, <u>Jean Feng</u>, Hartwig Huland, Markus Graefen, Thomas Wiegel, Dirk Böhmer, Julian C Hong, Gilmer Valdes, Janet E Cowan, Matthew Cooperberg, Felix Y Feng, Tarek Mohammad, Mohamed Shelan, Anthony V D'Amico, Peter R Carroll, and Osama Mohamad. Multi-institutional development and external validation of a machine learning model for the prediction of distant metastasis in patients treated by salvage radiotherapy for biochemical failure after radical prostatectomy. *European Urology Focus*, 2023.

Phoebe N Miller, Fernanda Romero-Hernandez, Patricia Conroy, Lucia Calthorpe, Mignote Yilma, Sarah Mohamedaly, Yvonne M Kelly, Jean Feng, Kenzo Hirose, Kimberly Kirkwood, Ajay V Maker, Carlos Corvera, Eric Nakakura, Adnan Alseidi, and Mohamed A Adam. Hand-Assisted versus pure Minimally-Invasive distal pancreatectomy: Is there a downside to lending a hand? *World J. Surg.*, 2023.

Jackie J Lin, Patricia C Conroy, Fernanda Romero-Hernandez, Mignote Yilma, Jean Feng, Kenzo Hirose, Eric Nakakura, Ajay V Maker, Carlos Corvera, Kimberly Kirkwood, Adnan Alseidi, and Mohamed A Adam. Hypertension requiring medication use: a silent predictor of poor outcomes after pancreaticoduodenectomy. *J. Gastrointest. Surg.*, 2023.

Leila Haghighat, Satvik Ramakrishna, James W Salazar, <u>Jean Feng</u>, Joey Chiang, Ellen Moffatt, and Zian H Tseng. Homelessness and incidence and causes of sudden death: Data from the POST SCD study. *JAMA Intern. Med.*, 2023.

Denise Cecil, Jean Feng, Alex Paynter, Jessica Perry, Noah Simon, Nicholas Drovetto, Lauren Corulli, Erin Rodmaker, Susan Strenk, David Fredricks, and Mary Disis. 1308 bacteria specific IL-10 secreting t-cells derived from the gut are cross-reactive with tumor antigens and accelerate tumor growth in mouse models. *J Immunother Cancer*, 2022.

Presentations

Invited Oral Presentations and Seminars

- 2023 Statistical Tools for Auditing Machine Learning Algorithms Across Subgroups and Time, Bay Area Biotech-Pharma Statistics Workshop
- 2023 Sequential algorithmic modification with test data reuse, Medical Imaging and Data Resource Center Seminar
- 2023 Is this risk prediction model reliable for everyone? A test for strong model calibration, Joint Statistical Meetings
- 2023 Monitoring machine learning (ML)-based risk prediction algorithms in the presence of confounding medical interventions, Joint Statistical Meetings
- 2023 Monitoring machine learning (ML)-based risk prediction algorithms in the presence of confounding medical interventions, International Chinese Statistical Association Applied Statistics Symposium
- 2023 Quality assurance and improvement for Machine Learning-based clinical decision support systems, UC Berkeley Biostatistics Seminar
- 2023 Monitoring machine learning (ML)-based prediction algorithms in the presence of confounding medical interventions, AMIA 2023 Informatics Summit

- 2022 Efficient nonparametric statistical inference for population variable importance, IMS International Conference on Statistics and Data Science (ICSDS)
- 2022 Opportunities at the intersection of Machine Learning and Epidemiology, Society for Epidemiologic Research (SER) Digital
- 2022 Quality assurance and improvement for Machine Learning-based clinical decision support systems, Colorado School of Public Health
- 2022 Statistical Methods for Monitoring and Updating AI/ML-Based Software as a Medical Device, ASA Biopharmaceutical Section Regulatory-Industry Statistics Workshop
- 2022 Sequential algorithmic modification with test data reuse, Uncertainty in Artificial Intelligence
- 2022 Approval policies for modifications to Machine Learning-Based Software as a Medical Device: A study of bio-creep, International Biometrics Society Journal Club
- 2021 Safe approval policies for continual learning systems in healthcare, Brown University
- 2021 Bayesian logistic regression for online recalibration and revision of risk prediction models with guarantees, ASA Biopharmaceutical Section Regulatory-Industry Statistics Workshop
- 2021 Variable Selection and Architecture Search for Neural Networks, ASA Statistical Learning and Data Science Webinar
- 2021 Bayesian logistic regression for online recalibration and revision of risk prediction models with guarantees, Western North American Region (WNAR) Annual Meeting
- 2021 Learning to safely approve updates to machine learning algorithms, ACM Conference on Health, Inference, and Learning
- 2021 Safe approval policies for continual learning systems in healthcare, University of Waterloo
- 2020 Efficient nonparametric statistical inference on population feature importance using Shapley values, International Conference on Machine Learning
- 2020 Training Procedures and Regulatory Policies for Safe Machine Learning Models in Healthcare, University of California, San Francisco
- 2020 Training Procedures and Regulatory Policies for Safe Machine Learning Models in Healthcare, The University of Texas, MD Anderson Cancer Center
- 2020 Training Procedures and Regulatory Policies for Safe Machine Learning Models in Healthcare, University of California, Irvine
- 2020 Approval policies for modifications to Machine Learning-Based Software as a Medical Device: A study of Bio-creep, International Conference on Health Policy Statistics
- 2019 Sparse-Input Neural Networks for High-dimensional Nonparametric Regression and Classification, Western North American Region (WNAR) Annual Meeting
- 2018 Nonparametric variable importance using an augmented neural network with multitask learning, International Conference on Machine Learning
- 2018 Sparse-Input Neural Networks for High-dimensional Nonparametric Regression and Classification, University of Washington Biostatistics Colloquium

- 2018 Sparse-Input Neural Networks for High-dimensional Nonparametric Regression and Classification, Joint Statistical Meetings
- 2017 Sparse-Input Neural Networks for High-dimensional Nonparametric Regression, ICML Workshop on Principled Approaches to Deep Learning
- 2011 Haptic Belt with Pedestrian Detection, Neural Information Processing Systems
 Contributed Oral Presentations
- 2023 Monitoring machine learning (ML)-based risk prediction algorithms: Addressing the challenge of confounding medical interventions, 2023 Innovations in Regulatory Science Summit
- 2019 Uncertainty-Aware Black-Box Predictors with Coverage Guarantees, Joint Statistical Meetings

Funding History

- 2020-2023 UCSF-Stanford CERSI Program; Role: PI
 - "Safe algorithmic change protocols for modifications to ${\rm AI}/{\rm ML}\mbox{-}{\rm based}$ Software as a Medical Device."
 - \$170,000 in direct costs
- 2023-2026 Patient-Centered Outcomes Research Institute; Role: PI
 - "Diagnostic tools for quality improvement of machine learning-based clinical decision support systems."
 - \$750,000 in direct costs

Awards

- 2020 University of Washington Thomas R. Fleming Excellence in Biostatistics Award
- 2020 International Conference on Health Policy Statistics, Student Travel Award For manuscript: Approval policies for modifications to Machine Learning-Based Software as a Medical Device
- 2018 Joint Statistical Meetings Section on Statistical Learning and Data Science, Student Paper Award
 - For manuscript: Sparse-input neural networks for high-dimensional nonparametric regression and classification
- 2018 University of Washington Biostatistics Donovan J. Thompson Award for Best Combined Performance on Ph.D. Theory and Applied Qualifying Examinations
- 2015–2017 Big Data for Genomics and Neuroscience Training Grant

Software

- ${\sf EASIER-Net} \quad {\sf Python} \ \, {\sf and} \ \, {\sf R} \ \, {\sf packages} \ \, {\sf for} \ \, {\sf fitting} \ \, {\sf neural} \ \, {\sf networks} \ \, {\sf for} \ \, {\sf high-dimensional} \ \, {\sf data}$

 - GapML Python package for analyzing cell-lineage tracing data from GESTALT https://github.com/matsengrp/gestaltamania

SPINN Python package for estimating sparse-input neural networks

http://github.com/jjfeng/spinn

samm Python package for estimating somatic hypermutation rates of nucleotide motifs

http://github.com/matsengrp/samm

Teaching

2021-Present Instructor, Biostat 216: Machine Learning in R for the Biomedical Sciences, UCSF

2022 Lecturer, Epidemiology, Biostatistics and Population Science (EBPS), UCSF School

of Medicine Bridges Curriculum

2020-Present Instructor, Machine Learning Boot Camp: Analyzing Biomedical and Health Data,

Columbia University

2020 Instructor, Supervised statistical learning, 6th Seattle Symposium in Biostatistics

Student Advising

2023-Present Harvineet Singh, Postdoctoral researcher

2023-Present Jinhee Lee, UCSF-UC Berkeley Computational Precision Health Designated Emphasis

program, UCSF-UC Berkeley Bioengineering PhD program

Spring 2022 Margaret Tsui, Biomedical Informatics PhD program, Qualifying Exam Committee

Summer 2022 Amanda Everitt, Biomedical Informatics PhD program, Qualifying Exam Committee

Faculty Advising

2023-Present Andrew Bishara, Assistant Professor, K23 grant

Service

Conferences and workshops

o Track Chair, Conference on Health, Inference, and Learning (CHIL) 2023

Referee Service

- Conference on Neural Information Processing Systems
- NeurIPS Workshop on Distribution Shifts
- Frontiers in Digital Health
- Lancet Digital Health
- Nature Medicine
- International Conference on Machine Learning
- International Conference on Learning Representations
- Journal of Computational and Graphical Statistics
- Statistics in Biopharmaceutical Research
- Annals of Applied Statistics
- Annals of Statistics
- Statistics in Medicine
- Neural Networks
- ASA Section on Statistical Learning and Data Science Student Paper Committee
- Communications Medicine

Conferences

- Joint Statistical Meetings, Session Chair
- O Western North American Region (WNAR) Annual Meeting, Session Chair
- Eastern North American Region (ENAR) Annual Meeting, Roundtable leader

University Service

- UCSF Artificial Intelligence Oversight Committee, March 2023–Present
- UCSF Artificial Intelligence/Machine Learning Demonstration Projects Steering Committee, Winter-Spring 2022
- UCSF Initiative for Digital Transformation in Computational Biology & Health Grant Review Committee, September 2021
- Department of Epidemiology and Biostatistics, Digital Health Initiative Steering Committee, 2020–Present
- Department of Epidemiology and Biostatistics, Admissions Committee for the Master's Degree in Health Data Science, 2022–Present

Work Experience

2019 **Research Intern**, *Insitro*, South San Francisco, CA Developed statistical models of genomic data.

2012–2015 **Software engineer**, *Coursera*, Mountain View, CA

Built the professional certificate program and payment system. Technical lead on projects with 3-5 people. Mentored interns and junior engineers.

Other

Summer 2023 Guest speaker for Kode with Klossy Summer program 2022-present Guest lecturer for UCSF AI4ALL Summer program
