Jean Feng

Position

July 2025–Present **Associate Professor**, Department of Epidemiology and Biostatistics, *University of California, San Francisco*

July 2025–Present **Associate Professor**, UCSF-UC Berkeley Joint Program in Computational Precision Health

July 2020–July 2025 **Assistant Professor**, Department of Epidemiology and Biostatistics, *University of California, San Francisco*

Nov 2022–July 2025 **Assistant Professor**, UCSF-UC Berkeley Joint Program in Computational Precision Health

Education

Sept 2015–June 2020 **PhD, Biostatistics**, *University of Washington*, Seattle, WA
Advisors: Noah Simon, Frederick Albert Matsen IV

2012–2013 **MS, Computer Science**, *Stanford University*, Stanford, CA

2009–2013 **BS, Computer Science**, *Stanford University*, Stanford, CA

Presentations

Invited Oral Presentations and Seminars

2026 *Clinical AI: Year in Review*, Boston Children's Hospital, Computational Health Informatics Seminar Series

2026 *Bayesian Concept Bottleneck Models with LLM Priors*, Joint Statistical Meetings (JSM)

2026 *Bayesian Concept Bottleneck Models with LLM Priors*, International Biometrics Conference

2026 *AI at an Urban Safety-net Hospital*, ACM Conference on Health, Inference, and Learning (CHIL)

2026 *LLMs Judging LLMs and Humans Judging LLMs: Who Can We Trust?*, Fred Hutchinson Cancer Research Center, Biostatistics Seminar Series

2026 *Clinical AI: Year in Review*, Symposium on Artificial Intelligence in Learning Health Systems (SAIL)

2026 *Clinical Reasoning in the Era of Artificial Intelligence (Panel)*, UC Health - Center for Data-driven Insights and Innovation (CDI2) Conference

2026 *Human-AI Co-design for Clinical Prediction Models*, Centers for Disease Control and Prevention (CDC) AI Community of Practice

2026 *Bayesian Concept Bottleneck Models with LLM Priors*, Online Interpretable Deep Learning Reading Group

2026 *Towards a Post-Market monitoring framework for AI/ML-based medical devices*, Forum on the Integration of Observational and Randomized Data (FIORD)

2026 *Bayesian Concept Bottleneck Models with LLM Priors*, Eastern North American Region (ENAR) Meeting

2026 *Toward statistically rigorous LLM-powered analyses: Two case studies*, University of California, Riverside, Department of Statistics Seminar

2026 *Monitoring clinical AI systems: Where are we now and where do we want to be?*, Simons Institute for the Theory of Computating, Workshop on Bridging Prediction and Intervention Problems in Social Systems

2026 *Scaling Medical Device Regulatory Science using Large Language Models*, Center of Excellence in Regulatory Science and Innovation (CERSI) Summit

2025 *LLMs judging LLMs: A Simplex Perspective*, Peking University, Biostatistics Seminar

2025 *Beyond the benchmark dataset: Real-world generalizability and regulatory challenges in medical AI*, Medical Image Computing and Computer Assisted Intervention Society (MICCAI) Special Interest Group for Biomedical Image Analysis Challenges

2025 *Monitoring clinical AI: Where are we now and where do we want to be?*, Machine Learning for Healthcare (MLHC) pre-conference workshop

2025 *External Validation of Clinical AI Models: Addressing Performance Decay and Distribution Shifts*, Symposium for the Launch of the Center for External AI validation in Healthcare, Taiwan Ministry of Health and Welfare

2025 *Translational Research in a Rapidly Changing World*, ACM Conference on Health, Inference, and Learning

2025 *Opportunities to leverage LLMs across the clinical AI/ML lifecycle*, Deep Learning and Health Futures Seminar, Microsoft Research

2025 *Are we ready to monitor clinical ML/AI algorithms?*, Biostatistics Seminar Series, University of Washington

2025 *Bayesian Concept Bottleneck Models with LLM Priors*, Deep Learning Affinity Group, Fred Hutchinson Cancer Center

2025 *Bayesian Concept Bottleneck Models with LLM Priors*, University of Southern California, SEEDS (Statistics Empowering Data Science) Conference

2025 *Towards a Post-Market monitoring framework for machine learning-based medical devices*, International Conference on Health Policy Statistics (ICHPS)

2024 *Bayesian Concept Bottleneck Models with LLM Priors*, FDA OSEL AI/ML Program Research Update Meeting

2024 *Strategies for Developing and Implementing AI/ML in Underserved Healthcare Environments*, AMIA Anual Symposium

2024 *Towards a Post-Market monitoring framework for machine learning-based medical devices*, Joint seminar between UC Berkeley Center for Targeted Machine Learning and the UCSF-UC Berkeley Computational Precision Health Program

2024 *Towards a Post-Market monitoring framework for machine learning-based medical devices*, Brown University, Symposium celebrating 30 Years of Biostatistics at Brown University

2024 *Bayesian Priors From Large Language Models Make Clinical Prediction Models More Interpretable*, AMIA 2024 Annual Symposium

2024 *"Why did the AUC drop?" A Hierarchical Framework to Explain Performance Changes of Machine Learning Models across Hospital Sites*, AMIA 2024 Annual Symposium

2024 *Towards a Post-Market monitoring framework for machine learning-based medical devices*, Johnson and Johnson MedTech Data Science Seminar

2024 *Designing monitoring strategies for deployed machine learning algorithms: navigating performativity through a causal lens*, Joint Statistical Meetings

2024 *Is this model reliable for everyone? Testing for strong calibration*, International Conference on Econometrics and Statistics

2024 *The Science Behind Monitoring and Updating AI Models*, Symposium on Artificial Intelligence for Learning Health Systems (SAIL)

2024 *Quality assurance and improvement for Machine Learning-based medical devices*, AI Regulatory and International Symposium (AIRIS)

2024 *Towards a Post-Market monitoring framework for machine learning-based medical devices: A case study*, CERSI Scientific Symposium

2023 *Statistical Tools for Auditing Machine Learning Algorithms Across Subgroups and Time*, IMS Young Mathematical Scientists Forum

2023 *Statistical Tools for Auditing Machine Learning Algorithms Across Subgroups and Time*, Bay Area Biotech-Pharma Statistics Workshop

2023 *Sequential algorithmic modification with test data reuse*, Medical Imaging and Data Resource Center Seminar

2023 *Is this risk prediction model reliable for everyone? A test for strong model calibration*, Joint Statistical Meetings

2023 *Monitoring machine learning (ML)-based risk prediction algorithms in the presence of confounding medical interventions*, Joint Statistical Meetings

2023 *Monitoring machine learning (ML)-based risk prediction algorithms in the presence of confounding medical interventions*, International Chinese Statistical Association Applied Statistics Symposium

2023 *Quality assurance and improvement for Machine Learning-based clinical decision support systems*, UC Berkeley Biostatistics Seminar

2023 *Monitoring machine learning (ML)-based prediction algorithms in the presence of confounding medical interventions*, AMIA 2023 Informatics Summit

2022 *Efficient nonparametric statistical inference for population variable importance*, IMS International Conference on Statistics and Data Science (ICSDS)

2022 *Opportunities at the intersection of Machine Learning and Epidemiology*, Society for Epidemiologic Research (SER) Digital

2022 *Quality assurance and improvement for Machine Learning-based clinical decision support systems*, Colorado School of Public Health

2022 *Statistical Methods for Monitoring and Updating AI/ML-Based Software as a Medical Device*, ASA Biopharmaceutical Section Regulatory-Industry Statistics Workshop

2022 *Sequential algorithmic modification with test data reuse*, Uncertainty in Artificial Intelligence

2022 *Approval policies for modifications to Machine Learning-Based Software as a Medical Device: A study of bio-creep*, International Biometrics Society Journal Club

2021 *Safe approval policies for continual learning systems in healthcare*, Brown University

2021 *Bayesian logistic regression for online recalibration and revision of risk prediction models with guarantees*, ASA Biopharmaceutical Section Regulatory-Industry Statistics Workshop

2021 *Variable Selection and Architecture Search for Neural Networks*, ASA Statistical Learning and Data Science Webinar

2021 *Bayesian logistic regression for online recalibration and revision of risk prediction models with guarantees*, Western North American Region (WNAR) Annual Meeting

2021 *Learning to safely approve updates to machine learning algorithms*, ACM Conference on Health, Inference, and Learning

2021 *Safe approval policies for continual learning systems in healthcare*, University of Waterloo

2020 *Efficient nonparametric statistical inference on population feature importance using Shapley values*, International Conference on Machine Learning

2020 *Training Procedures and Regulatory Policies for Safe Machine Learning Models in Healthcare*, University of California, San Francisco

2020 *Training Procedures and Regulatory Policies for Safe Machine Learning Models in Healthcare*, The University of Texas, MD Anderson Cancer Center

2020 *Training Procedures and Regulatory Policies for Safe Machine Learning Models in Healthcare*, University of California, Irvine

2020 *Approval policies for modifications to Machine Learning-Based Software as a Medical Device: A study of Bio-creep*, International Conference on Health Policy Statistics

2019 *Sparse-Input Neural Networks for High-dimensional Nonparametric Regression and Classification*, Western North American Region (WNAR) Annual Meeting

2018 *Nonparametric variable importance using an augmented neural network with multi-task learning*, International Conference on Machine Learning

2018 *Sparse-Input Neural Networks for High-dimensional Nonparametric Regression and Classification*, University of Washington Biostatistics Colloquium

2018 *Sparse-Input Neural Networks for High-dimensional Nonparametric Regression and Classification*, Joint Statistical Meetings

2017 *Sparse-Input Neural Networks for High-dimensional Nonparametric Regression*, ICML Workshop on Principled Approaches to Deep Learning

2011 *Haptic Belt with Pedestrian Detection*, Neural Information Processing Systems

Contributed Oral Presentations

2025 *Accelerating 510(k) Predicate Device Selection Using Large Language Models and Data Visualization*, Innovations in Regulatory Science Summit

2023 *Monitoring machine learning (ML)-based risk prediction algorithms: Addressing the challenge of confounding medical interventions*, 2023 Innovations in Regulatory Science Summit

2019 *Uncertainty-Aware Black-Box Predictors with Coverage Guarantees*, Joint Statistical Meetings

Funding History

2026-2027 US Food and Drug Administration Broad Agency Announcement (BAA); Role: PI
"Scalable monitoring procedures for generative AI-based medical devices": $730,000 total

2026-2027 UCSF Department of Epidemiology and Biostatistics, Artificial Intelligence Extramural Collaboration Seed Grant; Role: PI
"With AI Agents, You Too Can Build Interpretable Prediction Models from Unstructured Data: *An Open-Source Software Package*": $25,000 in direct costs

2026-2027 UCSF Department of Epidemiology and Biostatistics, Artificial Intelligence/Machine Learning for Health Seed Grant; Role: co-PI
"Post-market surveillance of AI Scribes with LLM-based causal monitoring": $50,000 in direct costs

2023-2026 Patient-Centered Outcomes Research Institute; Role: PI
"Diagnostic tools for quality improvement of machine learning-based clinical decision support systems": $750,000 in direct costs
+ "Methods Supplement to Support Innovative Research on AI and Large Language Models in Patient-Centered CER": $225,000 in direct costs

2020-2023 UCSF-Stanford CERSI Program; Role: PI
"Safe algorithmic change protocols for modifications to AI/ML-based Software as a Medical Device": $170,000 in direct costs

Awards

2026 Paper Award, Statistics and Trustworthy AI for Cross (X)-Domain Acceleration (STAI-X)

2026 Stellar Abstract Award, Statistics and Trustworthy AI for Cross (X)-Domain Acceleration (STAI-X)

2026 Service Award, Symposium on Artificial Intelligence in Learning Health Systems (SAIL)

2024 Quality Leaders Award in Equity, California Association of Public Hospitals and Health Systems Safety Net Institute

2024 The Joint Commission's Bernard J. Tyson National Award for Pursuit of Healthcare Equity

2020 University of Washington Thomas R. Fleming Excellence in Biostatistics Award

2020 International Conference on Health Policy Statistics, Student Travel Award
For manuscript: *Approval policies for modifications to Machine Learning-Based Software as a Medical Device*

2018 Joint Statistical Meetings Section on Statistical Learning and Data Science, Student Paper Award
For manuscript: *Sparse-input neural networks for high-dimensional nonparametric regression and classification*

2018 University of Washington Biostatistics Donovan J. Thompson Award for Best Combined Performance on Ph.D. Theory and Applied Qualifying Examinations

2015–2017 Big Data for Genomics and Neuroscience Training Grant

SPINN Python package for estimating sparse-input neural networks
`http://github.com/jjfeng/spinn`

samm Python package for estimating somatic hypermutation rates of nucleotide motifs
`http://github.com/matsengrp/samm`

Teaching

2024-Present Instructor, Datsci 224: Understanding Machine Learning: From Theory to Applications, UCSF

2026-Present Instructor, Summer Institute in Statistics for Big Data (SISBID): Deep Learning and Artificial Intelligence, University of Washington

2024-2025 Instructor, Summer Institute in Statistics for Big Data (SISBID): Supervised Methods for Statistical Machine Learning, University of Washington

2025 Guest Lecture, Taiwan Smart Healthcare School, Department of Information Management, Taiwan Ministry of Health and Welfare

2021-2023 Instructor, Biostat 216: Machine Learning in R for the Biomedical Sciences, UCSF

2022 Lecturer, Epidemiology, Biostatistics and Population Science (EBPS), UCSF School of Medicine Bridges Curriculum

2020-Present Instructor, Machine Learning Boot Camp: Analyzing Biomedical and Health Data, Columbia University

2020 Instructor, Supervised statistical learning, 6th Seattle Symposium in Biostatistics

Student Advising

2026-Present Venkatesh Sivaraman, Postdoctoral researcher

2025-Present Siyu Zhou, Postdoctoral researcher

2026-Present Noah Baker, PhD Biological and Medical Informatics, Committee Member

2025-Present Oscar Peng, Master's student in UCSF Clinical and Epidemiological Research

2023-Present Jinhee Lee, UCSF-UC Berkeley Computational Precision Health Designated Emphasis program, UCSF-UC Berkeley Bioengineering PhD program

2023-Present Saigeetha Bhaskar, Master's student in UCSF Clinical and Epidemiological Research

2023-2025 Harvineet Singh, Postdoctoral researcher

Summer 2024 Shreya Nadagowda, High School Intern from UCSF Summer Researchers in Global Health

Spring 2022 Margaret Tsui, Biomedical Informatics PhD program, Qualifying Exam Committee

Summer 2022 Amanda Everitt, Biomedical Informatics PhD program, Qualifying Exam Committee

2022-2025 Richard Hu, Master's student in UCSF Clinical and Epidemiological Research

2022-2023 Devika Krishnakumar, Master's student in UCSF Clinical and Epidemiological Research

Faculty Advising

2023-Present Andrew Bishara, Assistant Professor, K23 grant

2026-Present Fan Xia, Assistant Professor, Department of Epidemiology and Biostatistics Artificial Intelligence/Machine Learning for Health Seed Grant

Service

Editor

2026-Present Guest Editor of Special Collection on "Statistical Foundations of AI and Real-World Evidence Generation", Biostatistics

2026-Present Area Chair and Paper Awards Committee, Statistics and Trustworthy AI for Cross-Domain Acceleration (STAI-X)

2026-Present Program Committee, Symposium on Artificial Intelligence in Learning Health Systems (SAIL)

2025-Present Area Chair, Conference on Neural Information Processing Systems (NeurIPS)

2024-Present Statistical Editor, New England Journal of Medicine Artificial Intelligence (NEJM AI)

2023-Present Area Chair, Conference on Health, Inference, and Learning (CHIL)

2023-2025 Editor of Special Issue on "AI/ML Use Cases in Medical Product Development", Journal of Biopharmaceutical Statistics

Referee Service

- BMJ Open Quality
- NEJM AI
- Journal of Machine Learning Research
- Conference on Neural Information Processing Systems
- NeurIPS Workshop on Distribution Shifts
- Frontiers in Digital Health
- Lancet Digital Health
- Nature Digital Medicine
- Nature Medicine
- International Conference on Machine Learning
- International Conference on Learning Representations
- Journal of Computational and Graphical Statistics
- Statistics in Biopharmaceutical Research
- Biometrics
- Annals of Applied Statistics
- Annals of Statistics
- Statistics in Medicine
- Neural Networks
- ASA Section on Statistical Learning and Data Science Student Paper Committee
- Communications Medicine
- JAMA
- Journal of the American Medical Informatics Association (JAMIA)
- Nature Biomedical Engineering
- IEEE Transactions on Neural Systems & Rehabilitation Engineering

Conferences

- Joint Statistical Meetings, Session Chair
- Western North American Region (WNAR) Annual Meeting, Session Chair

- Eastern North American Region (ENAR) Annual Meeting, Roundtable leader

University Service

- UCSF, Department of Epidemiology and Biostatistics, Faculty Search Committee, Fall 2025
- UCSF Women in Tech for International Women's Day, March 2024
- UCSF "Implementation and Evaluation of AI in Real-World Clinical Settings" Seminar Series, Jan 2024–Present
- UCSF Artificial Intelligence Oversight Committee, March 2023–Present
- UCSF Artificial Intelligence/Machine Learning Demonstration Projects Steering Committee, Winter-Spring 2022
- UCSF Initiative for Digital Transformation in Computational Biology & Health Grant Review Committee, September 2021
- Department of Epidemiology and Biostatistics, Digital Health Initiative Steering Committee, 2020–Present
- Department of Epidemiology and Biostatistics, Admissions Committee for the Master's Degree in Health Data Science, 2022–Present
- University of Washington, School of Public Health AI Task Force, Spring 2026

Work Experience

2019 **Research Intern**, *Insitro*, South San Francisco, CA
Developed statistical models of genomic data.

2012–2015 **Software engineer**, *Coursera*, Mountain View, CA
Built the professional certificate program and payment system. Technical lead on projects with 3-5 people. Mentored interns and junior engineers.

Other

Winter 2025 Guest speaker for Monta Vista Robotics Team Diversity in STEM Symposium

Summer 2023 Guest speaker for Kode with Klossy Summer program

2022-present Guest lecturer for UCSF AI4ALL Summer program
